WORK HISTORY

May 2008 - Current

United Parcel Service (UPS) - Operations Manager, Davenport, IA

- Lead day-to-day operations managing over 175 hourly employees in a high-volume distribution hub.
- Develop and execute annual operational plans aligned with business goals, achieving consistent success in service, safety, and cost metrics.
- Created and implemented an innovative training protocol for onboarding, improving employee ramp-up efficiency.
- Conduct regular performance reviews with direct reports and develop individualized growth plans, fostering internal promotions.
- Drive continuous improvement initiatives using operational data to enhance throughput and mitigate safety risks.
- Collaborate cross-functionally to ensure legal and regulatory compliance.
- Led the top-ranked Group 3 Hub operation nationwide (2019–2021) based on organizational KPI elements.
- Recipient of the HSTS Peer Award for leadership and high potential (2019)

January 2021 - June 2024

PersonaFi - Researcher & Content Strategist, Remote

- Analyzed blockchain protocols, governance systems, token models, and on-chain data to produce detailed research articles for industry stakeholders.
- Analyzed data from GitHub repositories, Discord communities, governance forums, and blockchain analytics platforms to inform strategic decision-making.
- Researched market trends and crafted daily updates and educational posts to inform and engage users.
- Designed and implemented NFT initiative to enhance product offerings and market presence.
- Engaged with internal teams to strategically position user onboarding and drive social growth initiatives.
- Crafted digestible narratives from technical financial data, ensuring clarity and maintaining analytical credibility.

January 2020 - January 2021

CryptoBanter - Digital Asset Researcher, Remote

- Provided rapid-response content creation on industry trends, technical topics, and investment opportunities.
- Participated in daily editorial meetings and contributed actionable insights to the media team.
- Concluded role due to scheduling conflicts with South African-based operations.
